Resolutely forward-looking, Mobile Money Manager is state-of-the-art software for the up-to-date management of your affairs. Equipped with a simple and user-friendly interface, this product has a multitude of advanced functions that are particularly easy to use.

COMMISSION MANAGEMENT

Automatic computation

thanks to this feature, mobile money manager automatically calculates the amount of your commissions after each withdrawal operation in one of your kiosks.
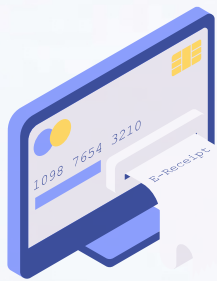

QUICK MANAGEMENT OF KIOSK STATES

100% online

thanks to this functionality, mobile money manager allows you to follow and know the financial state of your kiosks at any time without going to each kiosk. Saving you time and money while helping you make decisions quickly.

IMPORT DATA

Fast Excel data import

this feature allows you to overcome the problem of loss of internet connection. Indeed, it allows you to record mobile money transactions in an Excel file formatted beforehand for you, then to import these this file later into the system to have your data online and to activate the automatic calculation of commissions. etc ...

EXPORT DATA

for your personalized manipulations

this functionality allows you to export mobile money transactions and manipulate them according to your needs, or for archives, the utility ultimately depends on what you want.

MANAGEMENT OF INTER-KIOSK COLLABORATION

decide according to the states of the other kiosks

By signing up for the Collaboration Program, you can make decisions based on member kiosk status, such as calling a kiosk manager to ask him to stock one of your kiosks while you wait for your arrival, etc. .

Adopting Mobile Money Manager means enjoying advantages of all kinds

Saving time and productivity

you have the targeted information at your convenienceon your company in time and thus you can make decisions quickly

Visibility & traceability

Increased internal control, thanks to perfect traceability as well as secure rights of use by profile and by level of use.
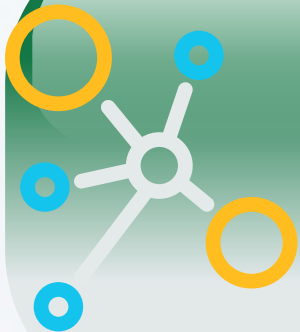

Real-time monitoring

your turnover, your commissions, your deposits and withdrawals, the evolution of kiosk conditions and thus anticipate any shortage of money in your kiosks.

Global and Permanent Vision

the commercial activity and profitability of the company (through the generation of dashboards). You can control your business in real time and anywhere in the world
